Bird watching visit to Pantawas Kalan

Report -

— Students of BSc Ist year were taken for Bird watching on 4th march 2021 to Pantawas Kalan to study different types of Birds i.e. local, migratory & water birds.

→ They identify the different birds with their size, shape, colour, habitat & sound.

→ This visit helped them to get the idea of adaptations which help the different species of birds to cope with their environment &

How the birds are indispensable part of the Biodiversity & Ecosystem.

→ This visit played a role in providing an intimate connection between people, birds & nature.

→ 50 students participated in this along with their teachers Dr. Sunita & Dr. Shamine.
